

Artificial Intelligence for Clinical Decision Support - AI4CDS -

MOLIT Institute and scientific collaborators call for project proposals in the field of artificial intelligence and clinical decision support.

Who can participate?

- This call is open for groups of students (max. 5 persons) at undergraduate and -graduate level as well as medical students with interest in developing an idea for Clinical Decision Support (CDS) supported by Artificial Intelligence (AI).

What is my benefit from participating?

- You get in touch with the community in the field of Data Science, AI and CDS.
- You can travel to the GMDS Event 2023 in Heilbronn, Germany.
- Teams will present their results at the MOLIT Satellite Event. Planned: The winning team will present at the GMDS 2023, the most important scientific congress for Medical Informatics, Biometry and Epidemiology in Germany.

How can I participate and how is the selection process organized?

- Fill out the online form for each team member before the deadline.
- The scientific board of AI4CDS evaluate proposals. Accepted projects will be connected to possible data deliverers if required.

What about Deadlines?

- **Extended Deadline for submitting proposals is 6th April 2023.**
- Proposal evaluation decision by the scientific board is due on 21st April 2023.
- MOLIT satellite event & result presentation at the GMDS 2023 (17th- 21st September 2023).

I have an idea, but I am not sure if it is suitable for AI4CDS. What can I do?

- Be sure fill out the online form anyway, together with our scientific board and partners we discuss suitability and feasibility of your proposal.
